# New "Brush Mobile" Wall Display Makes No Demands on Counter Space

Attach to the wall at some strategic point by its sturdy bracket. Just 36 inches high, it takes but little room and releases up to 4 sq. ft. of counter space. It revolves freely at the touch of the interested customer's finger, assisting his choice of Rubberset brushes for present and future needs. Each panel is of a different color, and the unit offers a large number and variety of America's finest brushes for easy inspection. It rings up sales as if it were geared to the cash register!

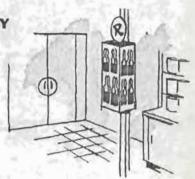

#### OTHER APPLICATIONS OF "BRUSH MOBILE" WALL DISPLAY

Brush Mobile can be attached to vertical dividers of paint shelves.

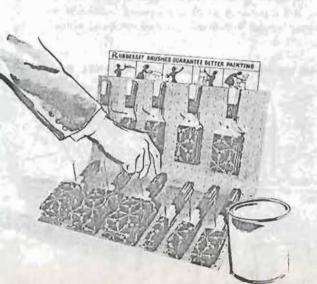

For use by counter, screw Brush Mobile to counter edge.

Attached to a post, it will attract plenty of favorable attention.

## New Dubberset "3-D" Display Sells for You in 3 Dimensions

Here's arresting modern design, a curved display unit with great flexibility of use in combinations. Use this modular display panel by itself, or combine it with similar or flat panel board units. It measures 24 by 24 inches (perimeter)—up to 20 sizes of Rubberset brushes can be displayed. Both sides are finished in vivid red lacquer. Seven single-prong hangers are supplied.

#### "3-D" DISPLAY IN VARIOUS COMBINATIONS

Two "3-D" Panels make S-shaped display for counter or wall.

Butterfly display formed by two "3-D" Panels

Both sides of a "3-D" Panel placed on end are

Fit two "3-D" Panels around support post for more efficient use of space.

Inverted "3-D" Panel makes good island display on counter.

A "3-D" Panel set of legs makes a 1-piec standing unit.

A "3-D" Panel and a Junior Panel, attached to wall, supply maximum display in small space.

Use "3-D" Panel and Senior Panel to form modern wall display center.

# Ride the tide with You need merely SHOW to SELL!

# ubberset

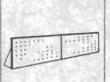

# ubberset's JUNIOR Panel Board Display

Here's a little dandy that does a big job alone, or in multiple-unit assemblies. This display holds Rubberset brushes in 7 graduated sizes. Measurements are 24 by 12 inches. It is finished in neutral gray lacquer with an attractive over-all print of black and white and comes with 2 legs and 7 singleprong holders.

#### VARIOUS WAYS TO USE JUNIOR PANEL BOARD DISPLAYS

line single Longer units made by two "Juniors" top of counter. side by side.

Tier formed by set-up of three 'Juniors.'

Vertical position where space is limited.

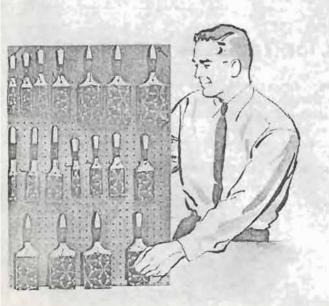

Tent construction using two "Juniors" back to back.

Triangle formed with island counter.

Box made of four "Juniors" for island counter.

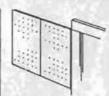

# **Pubberset's SENIOR Panel Board Display**

This impressive display can do a bang-up job singlehanded—or you can easily get unique effects by using it in combination with the Rubberset "3-D" Display or Junior Panel Board units. Dimensions are 36 by 24 inches, and it comes with 20 single-prong holders. It is finished in neutral gray lacquer with overall print of black and white.

#### SOME COMBINATIONS USING RUBBERSET SENIOR PANEL BOARDS

"Senior Single on wall holds 20 brushes.

Multiple "Senior panels can cover

Addition of simple legs makes "Senior" stanted display

Tent of two "Seniors" back to back forms island display.

Swinging panel

Inclined "Senior" on counter offers wide selection

Simple frame adds many square feet of selling space to island unit.

#### NYLON VARNISH AND WALL BRUSHES

WOOSTER "EXPLODED TIP" WOOSTER'S 'EXPLODED-TIP' BRUSH GIVES YOU 4 BIG ADVANTAGES

Everything you paint has that "professional" look. Provides a mass contact that smooths paint on. Each bristle tip, actually "burst" by a special process, gives a soft, feathery contact—no needle-sharp tips to "furrow" the paint and leave telltale brush marks.

You finish every job "ahead of schedule." Now it's unnecessary to stroke-stroke-stroke over the same spot-because no matter what type of paint you're applying, just a few strokes with Wooster's "Exploded-Tip" brush covers completely. It picks up an extra supply of paint, too, so you cover more area between dips. And when you're finished, cleaning this brush is much faster.

#### WOOSTER SELECTA-BRUSH MERCHANDISER

The Revolving Brush Display

Selector chart above each brush makes it so easy for customer to select the correct brush.

All hanger-type brush envelopes marked for correct job usage. Price circles on charts and brush envelopes encourage self-service. Holds complete assortment ranging from 1" touch-up to 4" wall brushes.

Features nationally-advertised Exploded-Tip brushes that paint easier, faster, better . . . approved by Good Housekeeping.

Takes only 11 inch diameter circle of counter space . . . only 231/2

Modern wrought-iron construction . . . simple to set up . . . smart enough to feature beside your cash register.

No charge for merchandiser when purchased with brush assortment below.

#### PAINT SPRAY GUNS

Internal Mix-Heavy Duty All Purpose Pressure Feed

For Spraying House and Barn Paints, Enamels, New Water Mixed Paints and Other Finishing Materials. Operates on Air Pressure from 20 to 45 lbs, at 1½ to 2½ cu. feet of Free Air per Minute.

Built-in Water Trap and Air Valve

Adjustable Spray Pattern Up to a Full Flat Fan Spray 12 inches Wide or a Full Round Spray. Stainless Steel Needle Valve Liquid Spray, Stainless Steel Needle Valve Liquid and Air Nozzles Perfectly Balanced with Comfortable Two-Finger Trigger and Connection at Bottom of Handle. One Quart Screw Type Aluminum Cup. Complete with Two Spray Nozzles.

54-131-M X8D33..... ....\$12.50

One in ctn. Wt. ctn. 31/2 lbs.

Bleeder Type-Positive Spray Control

Simple Light Weight Construction with Short Easy to Clean Air and Paint Channels, Hard-ened Steel Needle Valve Liquid and Air Nozzles. Finger Tip Controlled Adjustable Spray Pat-tern. One Quart Screw Type Aluminum Cup. Complete with 2 Spray Nozzles.

54-112-M X6D50......\$9.75

One in ctn. Wt. ctn. 3 lbs.

External mix gun. For fine finishes. Especially designed for efficient spraying of fast drying lacquers and synthetic enamels. Produces extremely fine atomization for smooth finishes. Horizontal or fan spray. Operates on 25 to 50 lb. pressure.

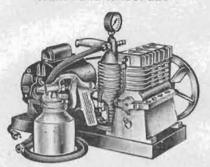

One Quart Aluminum Screw Type Cup. Ex-ternal Mix Spray Gun. Built-in Water Trap. Bleeder or Air Valve Control. Quickly Interchangeable. Two Spray Nozzles. Streamline Fatigueless Balance.

One in ctn. Wt. ctn. 31/2 lbs.

#### PAINT SPRAYERS

CAMPBELL-HAUSFELD

Pressure Queen

Four-cylinder portable. Built for heavy duty continuous operation. Provides flow of air absolutely free from pulsation.

4,000 strokes a minute at compressor speed of 1000 R.P.M.

Crank shaft is drop forged steel, heat treated, precision ground and balanced. Extra heavy sleeve type bronze bearings. Cylinders bored and honed to mirror finish.

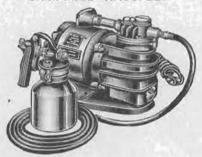

Displacement 5.58 C.F.M. 3.25 cubic feet per minute at 45 pounds.

Mounted on base with belt compressor pulley, 99B spray gun, 15 feet air hose, air chuck and ½ H.P. 115 volt, 60 cycle A.C. motor.

#### CAMPBELL - HAUSFELD

#### Pressure Maid

#### Compact, Portable and Economical

Ideal for home, workshops and hobby shops. Sprays paint, enamel, varnish, lacquer, stains, moth-proofing materials and disinfectants. Easy to use.

Durable cast iron construction. Aluminum alloy piston has two rings. Splash type oiling system. ½ H. P. split phase motor. Direct drive. Pressed steel base. No. 88C pressure feed bleeder type gun has fluid adjustment. Fan and round spray nozzle. One quart aluminum clamp-on canister. Air hose 15 feet long. Permanently attached cord and plug.

Operates on A. C. 110-120 volts, 60 cycles.

#### Capacity 1 Qutart,

Approximately 2 cubic feet per minute at working pressure.

AAILU	INIOTOL	

One in ctn. Wt. ctn. 44 lbs.

#### PAINT TANK

CAMPBELL-HAUSFELD

Complete with safety valve, pressure gauge and PT5 heavy duty 3-way air regulator. May be used with any compressed air line. Eliminates need of refilling spray gun cup, since cup is not used. Head is connected to tank with a 15 foot 3% inch material hose and 15 feet 1/4 inch air hose.

Can be used with either internal or external mix guns, 16 gauge metal, straight sides. Easy to clean, Order hose separately.

#### Super Standard One-Coat White

This superbly white product gives tremendous coverage because of its high pigmentation with titanium. The whiteness, the rich medium gloss, and the amazing case of brushability are due to expert formulation of selected pigments and refined oils. It is non-toxic, and will not discolor from the normal gases. Controlled self-cleaning properties.

This product may be applied by brush or spray, and is designed to be used as it comes from the container. Super Standard One-Coat House

Paint meets the U. S. Department of Agriculture standard for a Grade 1 House Paint.

- · Fast color delivery . . . improves customer service. Precision color delivery . . . insures color accuracy.
- · Metallic cabinet finish . . . easy to wipe clean.

· Adjustable can tray . . . for gallons, quarts and pints.

--TT-MK X775 D00

Crated. Wt. 400 lbs.

Designed to provide the paint dealer with a scientifically simplified color system that eliminates the necessity for large investments in bulk stock of colored paint. Here is a planned color system calculated to provide for all future color trends,

Now when the public demand for color changes, these tubes of colorant and the paint bases are always new, up-to-date materials that can supply the new color! Operate with lower investment, get fast turnover, and supply more colors than ever before!

These colorants are precision controlled to assure color accuracy at all times. They are fluid in character and easily dispersed to allow for speedy mixing with any of the paint bases.

Only 2 Paint Bases in each finish . . . a white base for the lighter color range . . . a neutral base for all the deeper colors. Approved paint bases are available in all types of paint such as latex . . . alkyd . . . oil . . . P. V. A. . . acrylic and exterior paints. Refer to following pages for description of approved paint bases in type of paint or finish desired.

The Color System Display and Color Books provide complete, simple information for the quick mixing of hundreds of paint colors. Take-home color chips and color books provide a beautiful color showing that is planned to provide for the varying trends of color preference so that you are always equipped to meet your customers' color needs.

The Colorant—Only 9 Colorants in 6 Tube Sizes and Quarts Ask about our Colorant Plan-It allows you to sell all colors at the same price as ready-mixed colors.

#### COLOR SYSTEM PAINT BASES

KEEN WE KUTTER

#### LOW LUSTRE HOUSE PAINT

Possesses same characteristics as Low Lustre House Paint but is "keyed to the Keen Kutter Paint Coloring System." Will readily accept colorants of system as well as Pro-Tint colors and may also be used as

EXTERIOR HOUSE PAINT

Durable, lead-free, high-hiding white carefully formulated. Keyed to Keen Kutter Paint Coloring System, this dazzling white paint is formulated from non-chalking pigments to give it excellent color retention when used as a base white with colors of Keen Kutter Coloring System. Will not erode and discolor the brick or darker siding around trim areas.

QUICK DRY ENAMEL

Processed from finest modern liquids to provide glass-like non-yellowing white surface. "Keyed" for use with any of the Keen Kutter colors, it gives a surface of great durability whether used inside or out, and on almost all surfaces—wood, metal, or plaster.
WOOD TONE STAIN SEALER

Provide the most modern and dependable wood finishing method for the home today. Simple two coat method-1 coat of sealer stain and I coat of clear varnish—gives a uniformity of color toning to wood that is really beautiful. Made from the basic colorants of the versatile Keen Kutter Paint Coloring System, offer a wide range of exciting modern stain

ODORLESS ALKYD FLAT PAINT

Covers in 1 coat, self-priming, high film build, rock hard dry, scrubbable, no brush marks, low odor. For use on plaster, wallboard, wood, concrete, brick, metal. 100% alkyd flat paint helps hide surface defects. May be tinted to hundreds of shades with colorants of Keen Kutter Paint Coloring System, can also be used as a white. One-coat coverage of surface, will dry to touch in one hour. Covers over 500 sq. ft. per gallon.

ALKYD FLAT WALL PAINT

Extremely versatile product formulated with low odor materials. "Keyed" to Keen Kutter Paint Coloring System, gives excellent coverage in its pure white form, yet readily accepts colorants of Keen Kutter System to provide a wide range of decorator colors, and may be easily tinted with Pro-Tint colors.

ALKYD SEMI-GLOSS FINISH

Professional quality semi-gloss finish-provides satiny sheen popular in offices, stores, institutions, and in kitchens and bathrooms where its odorless qualities make it highly acceptable. Satin finish will stand up under repeated cleanings. "Keyed to Keen Kutter Paint Coloring System," may be used as a white, and will also readily accept colorants of that system as well as Pro-Tint Tinting Colors.

SATIN FINISH LATEX PAINT

For use on plaster, wood, primed metal, painted surfaces, brick, plywood, and color-fast wallpaper. Rubber base paint that offers hundreds of colors in this modern latex interior paint. Scrubbable and wipes clean easily. Dries within 30 minutes without any lingering paint odor.

White Paint Bases-For the lighter or pastel shades of color.

Neutral Paint Bases-For the deeper and brighter shades of color.

## "THEATER OF COLOR" CHIP RACK

shades . . . deep, medium and light of a color, are shown on each of 240 color chips. Chip is 1½x4½ inches. The display structure consists of a keystone-shaped center message panel and 2 wings, each having 4 vertical rows of 33 horizontal rows. Each wing, finished in a neutral charcoal grey finish, is supported by a sturdy easel, and secured to the center panel by a sliding slot device. Packaged flat in compact carton and easily assembled in moments. Sturdily constructed of wood, masonite and metal reinforcings. 24½ inches high, 48 inches wide, 21 inches deep. Shipping weight 19 lbs.

Per Rack
-MA347-MK—Furnished with Color Machine.

## Replacement Packs of Chips

Can be ordered, specifying, of course, the color numbers desired. Individually packaged in cellophane, 10 chips per pack... minimum order 50 packs of one or more assorted color.

Complete Set of Chips

## COLOR DIRECTORY

720 colors are shown in this compact, easy to carry color book . . . invaluable as a "loan-out" book for your customer to make that color selection at home, or for the professional painter on his job. 240 different colors in each of 3 stacks makes it possible to view hundreds of attractive color combinations. The book displays an extensive color selection ranging from medium deep tones to very light pastels . . . each color generously shown on page size  $2\frac{1}{4}x4\frac{1}{8}$  inches. Bound with multi-ring binding, with non-warping clear vinyl plastic cover. Each page shows 3 colors, each identified by Master Color System number. Each page identified with chip rack location number and book page number. Packed in individual shipping box.  $6\frac{3}{4}$  inches long,  $4\frac{1}{8}$  inches wide,  $\frac{3}{4}$  inch thick. Shipping weight 2 lbs.

Each

--- MA346-MK-Furnished with Color Machine.

## COLOR FORMULA FILE

Indispensable, in use with the color machine, for rapid location of the color formulas. The shallow wood tray allows easy access to cards in locating formulas from either left or right side of the file. Formulas are filed in numerical order by color system number. For example, color No. 15-24 is found under tab No. 15, and the second half of the number "24" gives its order sequence in this group. The 3x5 inch formula cards are divided into 80 groups and are so divided among the 80 index tabs of the file. All cards and index dividers are securely locked into the tray by a threaded retaining rod. Additional cards may be added as future requirements arise. 3¾ inches high, 6½ inches wide, 16½ inches deep. Shipping weight 7 lbs.

Each

\*MA302-MK-Furnished with Color Machine.

## MASTER COLOR INDEX

1156 colors are shown in this compact, specially designed color reference book. Each color is shown on chips  $\sqrt[3]{4} \times 1\frac{1}{2}$  inches in size. They are shown in color hue and shade groups of approximately 15 colors on each of 80 pages to facilitate color comparisons. The two-stack binding permits comparisons between color groups for planning of hundreds of color harmonies. Book opens quickly and easily to be used in the flat position or in the position illustrated above. Invaluable for use by the decorator or architect as a color specification reference book . . . designed to fit into the No. MA303 Architect-Decorator Color Case. Covered in rich brown leatherette covering and equipped with 2 sets of metal multi-ring bindings with trigger releases for easy opening.  $10\sqrt[3]{4}$  inches long,  $4\sqrt[5]{8}$  inches wide, 2 inches thick. Shipping weight 3 lbs.

## 9 TUBE COLOR SYSTEM CHIP RACK

## 300 Colors

Clear, heavy plate glass sliding doors protect color chips from dust in this sturdy metal cabinet. The 15 horizontal rows and 20 vertical rows are clearly identified by location tape, and the stepped arrangement displays the colors clearly. Spring clips in back of rack provide for use of header cards . . . a variety of card designs and shapes can be accommodated. Glass doors can easily be removed by merely loosening two screws at top sides of rack. Rear of rack provides additional storage space for additional merchandising aids. Finished in neutral gray finish. 2x26 inch space at bottom front provides additional excellent space for individualizing message. 15½ inches high, 26¼ inches wide, 13 inches deep. Shipping weight 30 lbs.

Per Rack

-MA307-MK-Furnished with minimum order for tubes of colorants.

## Replacement Packs of Chips

Can be ordered, specifying, of course, the color numbers desired. Each color individually packaged in cellophane, 10 chips per pack... minimum order 50 packs of one or more assorted colors.

# Zuick Drying ENAMEL Washable & Durable & One Coat Covers

## A PERFECTED ENAMEL OF OUTSTANDING QUALITY . . .

Meets every test of superior performance on all types of interior surfaces.

Covers solidly in ONE COAT and dries quickly in four to six hours to a beautifully lustrous, high gloss finish.

So EASY TO APPLY it may be used by the most inexperienced with perfect results. Works like magic—flows freely without laps or brush marks—will not run or sag.

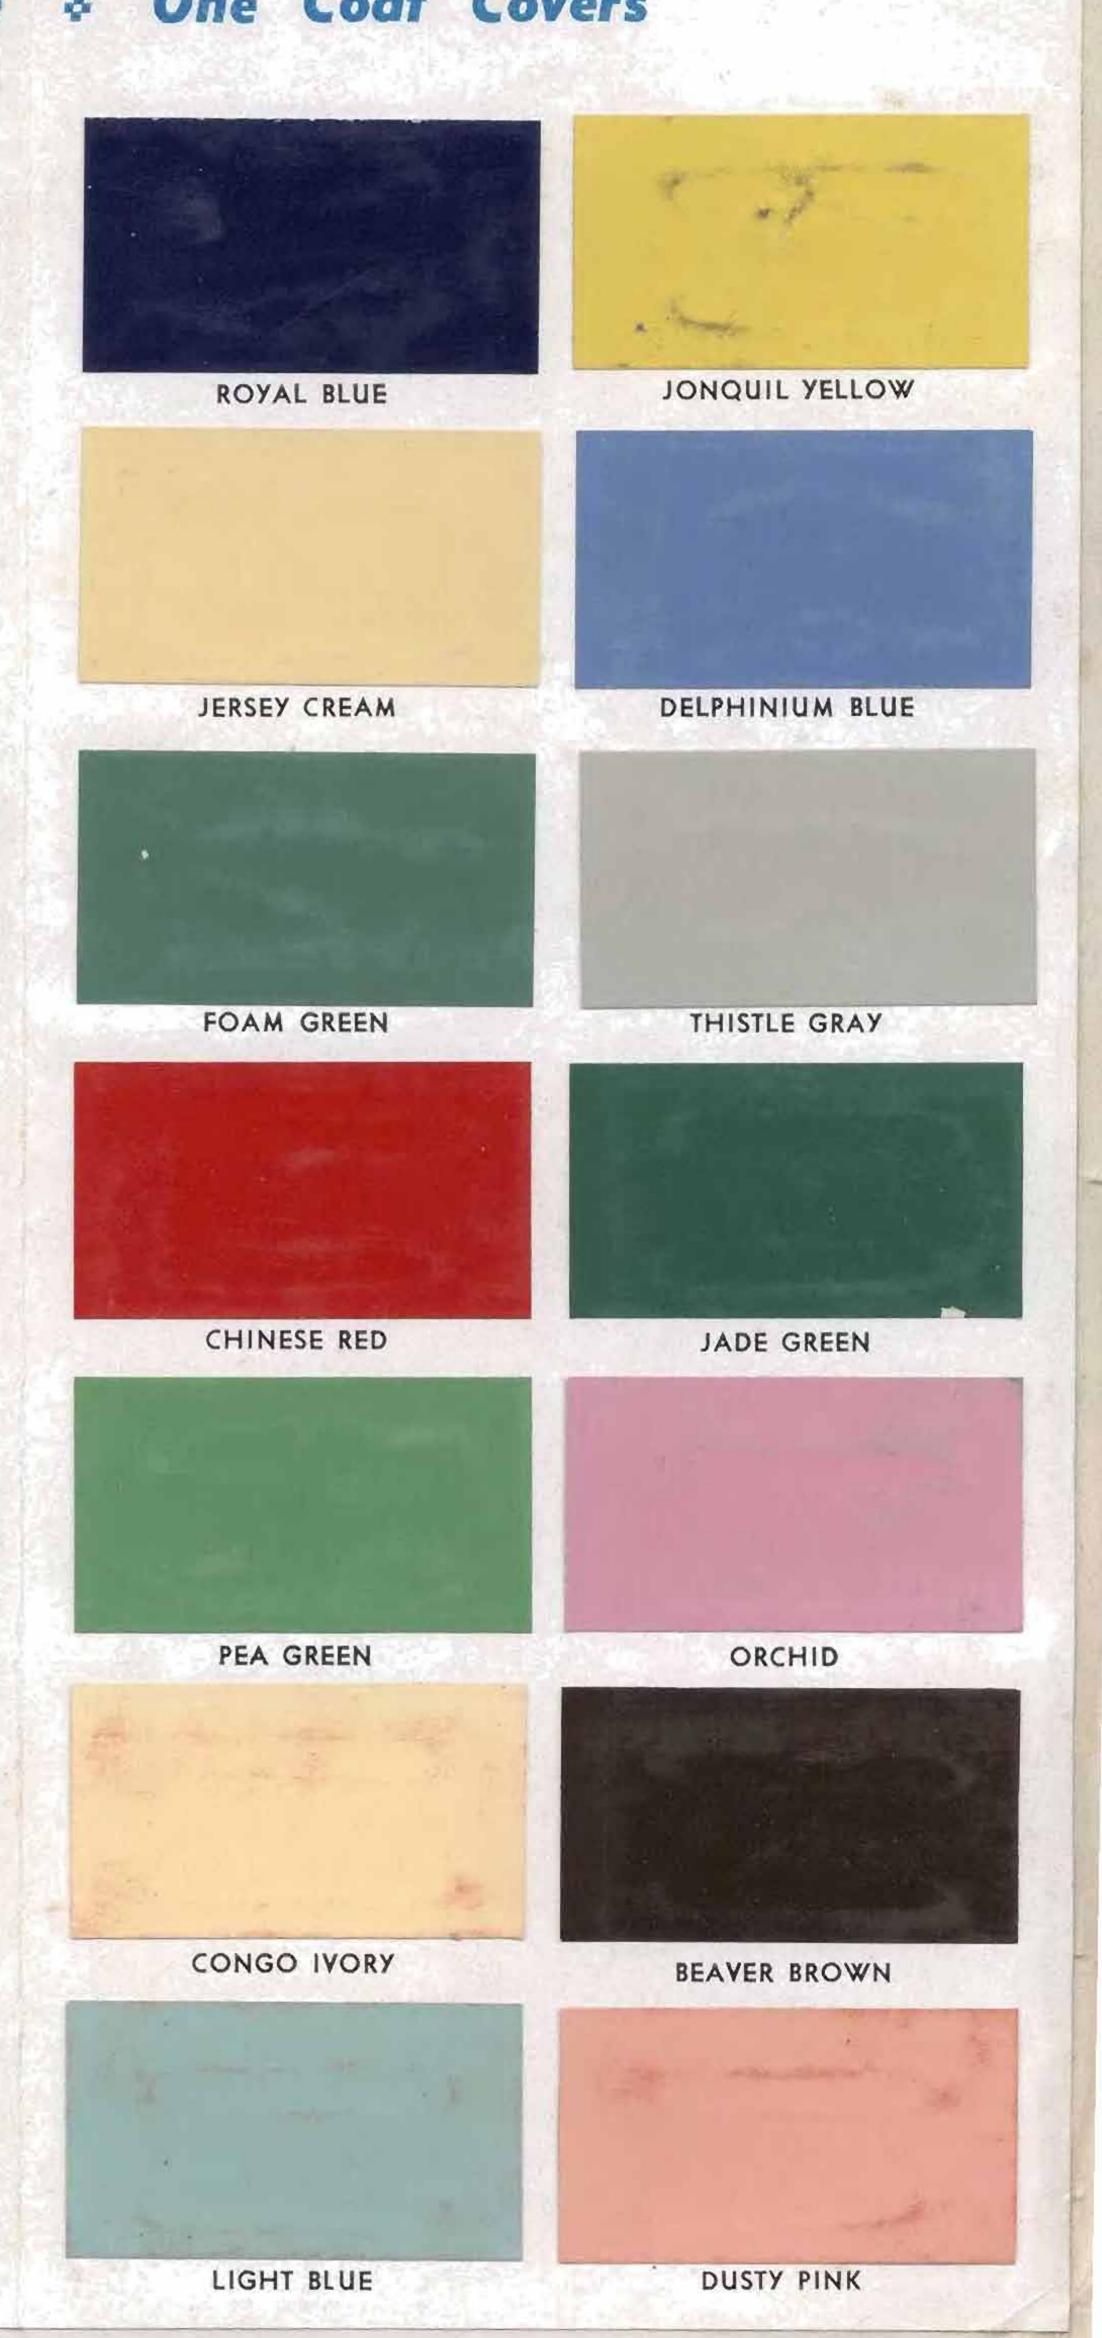

Colors remain bright as long as the paint film lasts. Its hard, tile-like surface will retain its beautiful color and finish with frequent washing.

This popular enamel sets a new standard of beauty in modern color styling. Drab colors disappear like magic under the brush on all surfaces where these beautiful colors are applied. Its smooth beauty enhances the brilliance of its color tones and adds a zest and interest to home surroundings that only color can achieve.

When used on walls and woodwork provides backgrounds of distinction. Ideal for kitchens, bathrooms, pantries and cabinets. Acids, alcohol, strong soaps and washing solutions will not mar its fine finish. Adds new life and interest to old furniture.

Its excellent coverage and fine working qualities are quickly recognized and enthusiastically endorsed by "paint-wise" master craftsmen with their unfailing sense of values based on sound working experience, because they know that this fine quick drying enamel offers extra value from the standpoint of economy, performance and real beauty of finish.

ALSO BLACK • WHITE AND ENAMEL UNDERCOATER

## 2040 SUPER WHITE HOUSE PAINT

SIMMONS GUARANTEED

GAS PROOF

54-9040Q-M

SUPER WHITE HOUSE PAINT is a solid-covering, first-quality product for general exterior use. Manufactured on a formula containing a high percentage of Titanium Pigment, celebrated for its extreme whiteness and beauty of finish, combined with Zinc Oxide which provides an extra-hard surface that retards chalking to an excessive degree, and assures longer life of the film.

Will resist darkening action of fumes and gases in industrial areas. Because of its high Titanium content, this product has self-cleaning properties not found in ordinary house paints, making this an ideal finish for dust storm areas.

Covers approximately 650 square feet per gallon, one coat over well primed surfaces in good condition.

Drying time 24 to 48 hours for recoating.
