SUBURBIA . . . In which occurs a lovely meeting of the rural and urban on the new "Foremost" shape—yellow glossy rounded flowers with graceful light-and-shadow leaves, in a formal arrangement enhanced by slender trellises, all against a cream white background.

PARK LANE . . . Lovely as its name, Park Lane is the timeless sort of pattern you will treasure for years to come. Enchanting, stylized floral sprays in soft rose, gray and brown encircle the rim—edged in platinum. A perfect gift for the bride.

GRAPEVINE . . . Glorious silver-green leaves on twining stems of rich brown, curl gracefully around the rim of the classic "Aerene" shape . . . gives startlingly vibrant effect against the frosty white ground. Equally at home with period or modern decor.

EBONETTE . . . A new look in table decoration. Ebonyette is for the modern minded with its square-rimmed "Criterion" shape. Its abstract designs, its striking black and white color combinations—hand-painted under the glaze. For added interest most hollow pieces are solid black.

GENERAL INFORMATION

The Homer Laughlin China Company—the world's largest pottery—was established in 1871. It has grown consistently since then and today, in its five plants all located in Newell, West Virginia, and each one devoted exclusively to the production of dinnerware, it offers the widest range of smartly styled dinnerware to the American retail market. Total capacity of the pottery—with its thousands of ceramic craftsmen, artists and technicians—is in excess of fifty thousand dozen pieces daily. Ever since the turn of the century, painstaking research and artistic skill have added to the laurels bestowed on this organization of coast-to-coast fame.

Only Homer Laughlin produces the new and outstanding lightweight EGGSHELL dinnerware, made possible by new processes and materials—the result of typical American inspiration and ingenuity. You will delight in the rare charm of its graceful patterns and decorations, the subtle air of distinction in its feathery lightness and the knowledge that Eggshell is not only 25% lighter, but also 25% stronger than the finest semi-vitreous dinnerwares produced today.

All Homer Laughlin dinnerware—not only the Eggshell—is guaranteed, under ordinary conditions, against crazing and checking, not for a limited time, but forever. This guarantee can safely be made because only top quality materials and the most approved manufacturing processes are used in the production of this fine American-made dinnerware.

All of the patterns shown on the reverse side of this page are "open stock" patterns—and replacements and additions will be handled by the factory for many years after the pattern has finally been withdrawn from the market.

Dollar for dollar—you just can't buy better ware than Homer Laughlin!
